Product information sheet

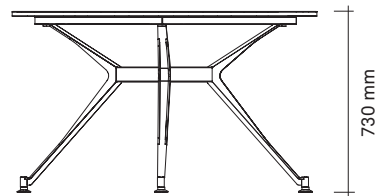

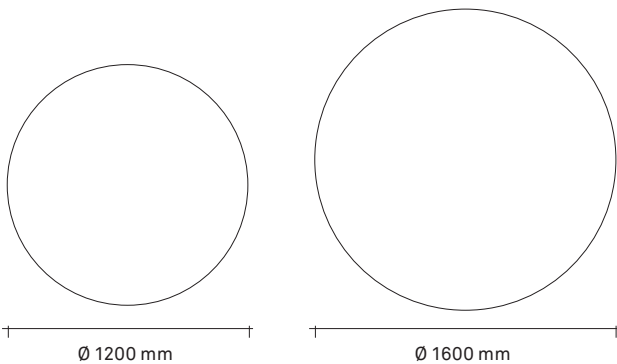

Product range

LO

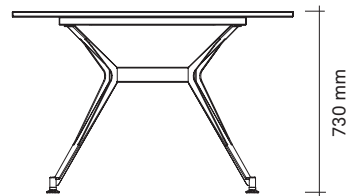

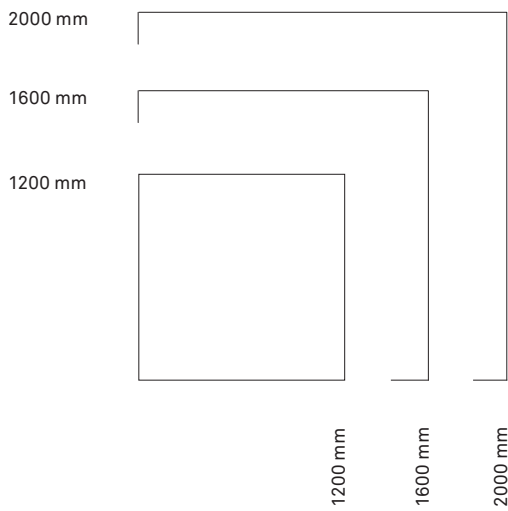

Round, square, rectangular, oval or curved, big or small – LO D11 conference tables come in the perfect form for any meeting. The laser-welded steel subframe, simultaneously elegant and sturdy, creates meeting and discussion zones that are as strong as they are stylish.

Alternative versions and extra large sizes available on request.

Conference table, square

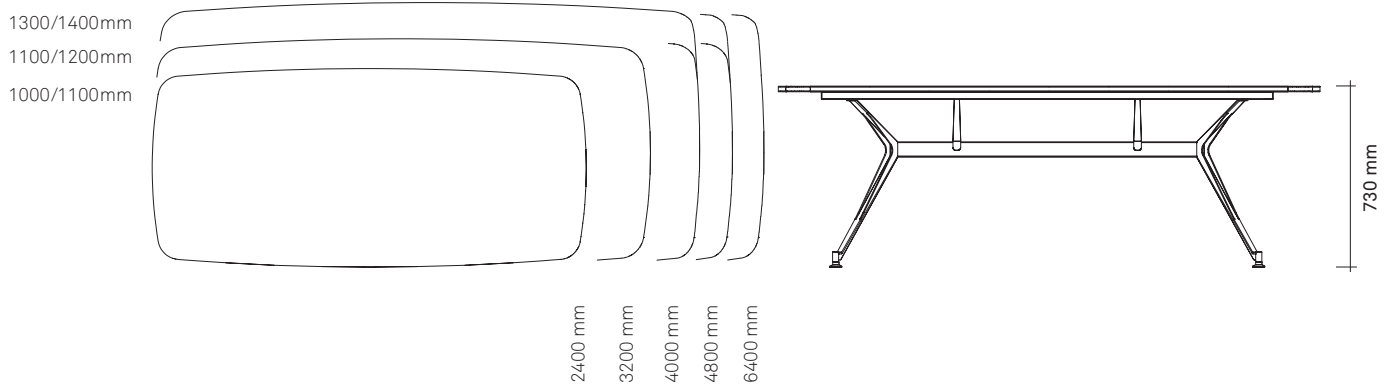

Conference table, rectangular

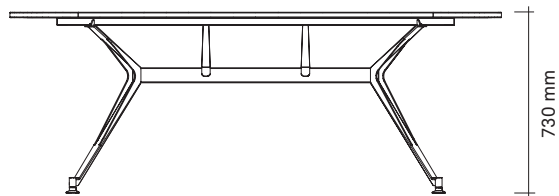

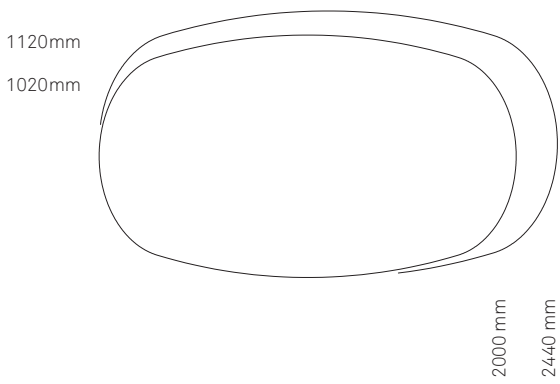

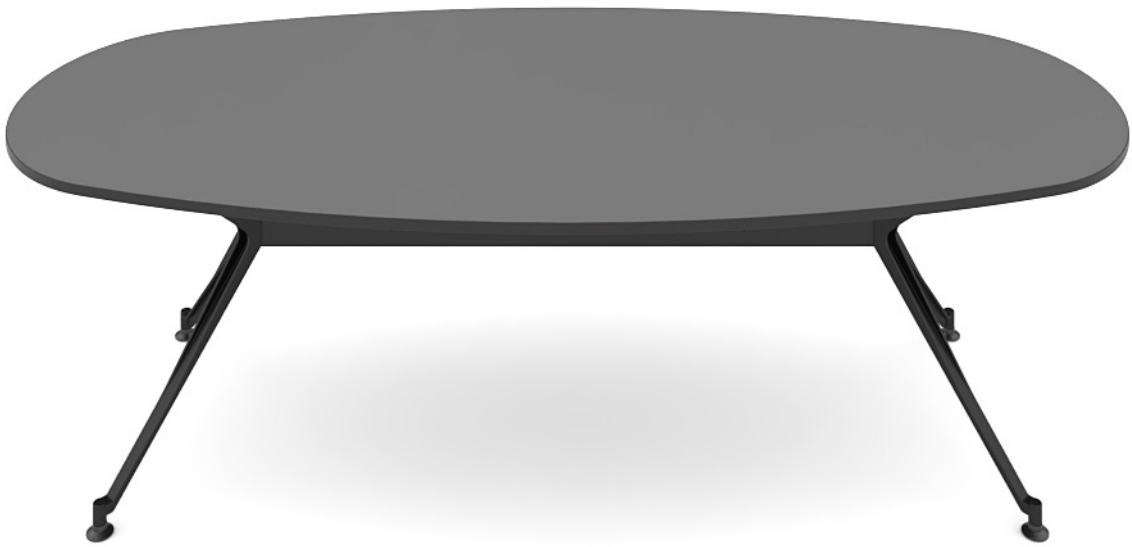

Conference table, long sides curved

Conference table, long and short sides curved

Conference table, oval

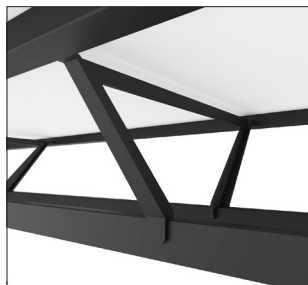

Details

LO

As well as the attractive design, it also impresses with useful details: LO D11 features leg caps that allow the table to glide almost weightlessly over carpets, parquet floors and concrete. On uneven floors, it can be levelled by up to 20 mm; the levelling function is integrated into the design and accessible from above. The intelligently designed power supply keeps the table clear both on top and underneath.

LO Colors colour concept

A focused use of colours in the office adds a touch of design flair. It bolsters corporate identity, and increases the team's motivation and productivity. LO D11 are available in a range of colours and supplementary materials such as (solid) wood, linoleum or synthetic resin. This gives the office visual flair and opens up scope for individuality.
