3. Input/output analysis

1. Review 2022

Review

Energy efficiency was increased to 136,5% compared to 2013. This corresponds to a 25,9 % improvement in energy efficiency compared with the target path.

CO₂ emissions were reduced to 42,4% compared to 2013. This corresponds to an undercutting of the CO₂ reduction path by 36,6

"Energy efficiency" from obligation according to bulk consumer article / "CO₂ reduction path" from voluntary commitment with FOEN

1. Review 2022

Review

Projects realized in 2023:

- Further partial lighting with LED.

- 2. Targets and projects 2024**
3. Input/output analysis

2. Targets and projects 2023

Outlook

In the current year, Lista Office LO is aiming to reduce energy consumption by efficiency by a further percent. CO₂ emissions to be further reduced by 2%.

Projects planned in 2024:

- Further process optimizations in manufacturing

Input/output analysis

Raw materials
Supplies
Packaging
Water
Energy

Output

Products
Waste
Wastewater
Emissions

The background of the image consists of a series of parallel, diagonal lines that are blurred, creating a sense of motion or depth. The lines are light gray and set against a dark, almost black background. The word "Input" is overlaid on the left side of the image in a clean, white, sans-serif font.

Input

Raw materials (t)

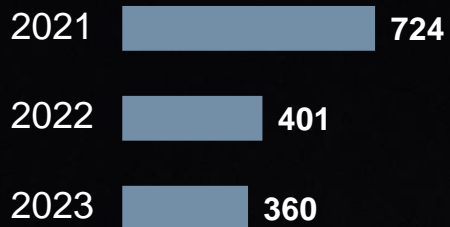

Steel

Aluminium

Wood

Supplies (t)

Powder coating

Chemical supplies

Resources

Natural gas (Ho)

Heating oil (MWh)

Electricity (MWh)

Resources

Fresh water (m³)

Output

A minimalist office scene featuring a long, white desk with a black ergonomic office chair. The chair is positioned in the center, facing right. The desk has several drawers with silver handles. The background is a bright window with white curtains. The floor is a light, neutral color. The word "Output" is written in a large, black, sans-serif font on the left side of the image, partially overlapping the desk.

Waste (t)

Scrap metal

Recycled material

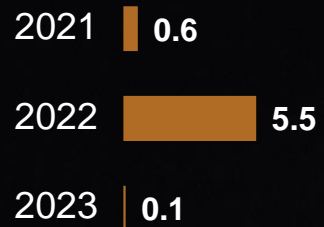

Waste (t)

General waste

Hazardous waste

Emissions (t)

Organic compounds (voc)

2022 0.17

2023 0.15

Carbon dioxide (CO₂)

2021 759

2022 743

2023 693

An aerial photograph of a rural landscape. In the center, a small, weathered wooden barn with a dark roof sits in a vast, vibrant green field. A narrow dirt path winds through the field towards the barn. The foreground is dominated by a dense forest of tall, thin trees with varying shades of green. The background shows rolling green hills under a clear sky.

For a sustainable working world.
