1. Review 2024

Review

Energy efficiency was increased to 137.1% compared to 2013. This corresponds to a 25.7 % improvement in energy efficiency compared with the target path.

CO₂ emissions were reduced to 42.3% compared to 2013. This corresponds to an undercutting of the CO₂ reduction path by 35.4%.

"Energy efficiency" from obligation according to bulk consumer article / "CO₂ reduction path" from voluntary commitment with FOEN

1. Review 2024

Review

Projects realized in 2024:

- Further partial lighting with LED.
- Partial roof renovation
- Replacement of pump motors

- 2. Targets and projects 2025**
3. Input/output analysis

Outlook

In the current year, Lista Office LO is aiming to reduce energy consumption by efficiency by a further half percent. CO₂ emissions to be further reduced by 1%.

Projects planned in 2025:

- Further process optimizations in manufacturing
- Replacement of old systems
- Roof renovation with photovoltaics

Input/output analysis

Input

Raw materials
Supplies
Packaging
Water
Energy

Output

Products
Waste
Wastewater
Emissions

The background of the image consists of a series of parallel, diagonal lines in shades of gray and black, creating a sense of depth and movement. The lines are slightly blurred, giving the image a dynamic, almost abstract feel. The word "Input" is written in a clean, white, sans-serif font, positioned on the left side of the image, partially overlapping the diagonal lines.

Input

Raw materials (t)

Supplies (t)

Powder coating

Chemical supplies

Resources

Natural gas (Ho)

Heating oil (MWh)

Electricity (MWh) 100% hydropower

Resources

Fresh water (1000 liter)

Output

A minimalist office scene featuring a long, light-colored desk with a black ergonomic chair tucked under it. The background is a large window with sheer white curtains, allowing soft, diffused light to fill the room. The overall aesthetic is clean and professional.

Waste (t)

Scrap metal

Recycled material

Waste (t)

General waste

Hazardous waste

Emissions (t)

	Organic compounds (voc)
